Clarifications – GAG4 (Fourth Call) – Rejuvenating Gozo

Issue Date - 15th July 2024

Can a partnership comprise of 4 partners?

The requirement is that each application must consist of any three entities from the categories mentioned (Local Councils, NGOs, and business operators). The applicant must cooperate with at least two other partners, implying a minimum of three partners in total. However, the guidance notes do not explicitly limit the number of partners to only three. Therefore, a partnership can comprise four partners as long as they are from the specified categories. The key is to ensure that there are at least three entities, with the applicant and two other partners.

Can a partner be involved in more than 1 application as partner?

Yes, a partner can be involved in more than one application as long as they are not participating under different/competing applications within the same measure. This means that while an entity can apply under multiple measures, they cannot compete against themselves within a single measure. Therefore, a partner can be involved in only one (1) application within this call. Additionally, applicants already benefiting under GAG4 - Rejuvenating from previous calls can only apply if the entity submits the Final Payment Declaration as submitted to ARPA.
